Responses to Vendor Questions
2014 Employee Health Clinic RFP
August 28, 2013**

These responses are provided by MCHCP to questions received from potential bidders for the 2014 Employee Health Clinic RFP. MCHCP has listed similar questions and responses only once.

General

1	Will MCHCP consider a joint proposal from a national and local provider, while a first time partnership, does draw on both parties' historical and current capabilities to meet all minimum requirements?	MCHCP will not consider a joint proposal of two separate entities. There must be a single entity to submit a proposal.
2	Will MCHCP consider a three-year minimum agreement term vs. one year for purposes of the proposal?	No, the term of the contract as outlined in the bidder invitation letter is for one year with an additional four (4) one-year renewal options available at the sole option of the MCHCP Board of Trustees.
3	Is there latitude in the start date to be moved to March 1, 2014?	No.
4	Can you please share your future vision for your organization's growth / expansion over the next 3 to 5 years?	For the purposes of this RFP, MCHCP is seeking to pilot an on-site employee health clinic. Future plans and possible expansion opportunities are defined in Exhibit B, Scope of Work, Section B6.2.
5	Have you defined the essential functions for all roles within your organization?	MCHCP has defined the roles within MCHCP for the purposes of the on-site clinic and are as described within the RFP.
6	Can you share any detail with regard to your benefit and/or incentive design? o How will the wellness program and/or health center impact same? o Do you have an HSA plan? If so, can you share the enrollment? o What are the current benefit design plans?	The services provided under the on-site clinic are separate and distinct from the benefit and incentive designs provided under MCHCP's other medical plan offerings. However, MCHCP's Strive for Wellness incentive plan design and wellness program are operated by a separate MCHCP wellness services vendor. As explained in Exhibit B, Scope of Work, Section B2.7, the on-site clinic vendor will work closely with MCHCP's Strive for Wellness team to promote, market and assist in coordinating wellness initiatives. The specifics will be discussed with the proposal finalists. MCHCP's current HDHP enrollment is approximately 5.7 percent of the eligible population. At present, MCHCP has a PPO 300, PPO 600 and HDHP with HSA. For an overview of the medical plans, please see our webpage at: http://www.mchcp.org/stateMembers/medical/comparisonChart_2013.asp . For your convenience, MCHCP has attached a page to this Q&A document that contains the information as well.
7	How are you handling pharmacy needs at present? Imaging?	MCHCP medical plan members receive their prescription drugs through its pharmacy benefit manager, Express Scripts. Medical orders for imaging studies are covered through its third party administrators, UMR and Coventry.

8	Are there any billing considerations that we should be aware of (zero \$\$\$ claims, FSA issues, etc.)?	MCHCP is not aware of any particular billing considerations. MCHCP does anticipate that the vendor would provide the patient a receipt of payment for the employee's share of the visit cost. MCHCP does not anticipate that the vendor would be billing another third party for the remainder of the service cost. There will be some services that do not include a patient cost if the patient is a MCHCP medical plan member and the service is a preventive service such as a flu shot, lipid profile, etc. As explained in the invoicing section, MCHCP will be reimbursing the vendor on a cost basis less any monies received from the patient for the cost of the visit.
9	Can you share demographic information about your participant group? Average age, male/female percentage, etc.	The average age of employees in the counties surrounding the clinic location is 51.2 years. Approximately 63 percent of the employees are female.
10	Can you please confirm your estimated number of total participants in the "immediate area" of the health center including employees, retirees, and dependents? o Employees with access to the clinic= o Spouses with access to the clinic= o Child dependents with access to the clinic=	The clinic will provide services for active state employees who are eligible under MCHCP statutes, regulations and/or plan. Dependents of active state employees are not eligible for clinic services. Approximately 7,000 state employees work in the immediate area of the capitol building, with a total of 13,880 state employees working in the county of Cole, but not conveniently located to the on-site clinic space.
11	What is the anticipated/expected employee growth rate?	The number of employees is dependent upon the personal services budget as passed by the Missouri General Assembly and enacted into law. MCHCP does not anticipate appreciable variance in the number of employees unless the personal services budget authority is reduced through legislative or Governor action.
12	What is the annual attrition rate?	The number of employees is dependent upon the personal services budget as passed by the Missouri General Assembly and enacted into law. MCHCP does not anticipate appreciable variance in the number of employees unless the personal services budget authority is reduced through legislative or Governor action.
13	Is there an existing co-pay for employees when visiting a clinic? If so, what is it?	For employees in existing medical plans, office visit patient charges are dependent upon the medical plan chosen by the employee. Please refer to the plan design provided as an attachment to this Q&A document. Employees will pay an on-site clinic visit fee. The fee will vary based upon the patient's status as a MCHCP medical plan member or not as a medical plan member. The on-site clinic visit fee amounts will be determined after contract award and will be dependent upon the estimated cost of the on-site clinic visit based upon the pricing proposal of the awarded vendor. There will be some services that do not include a patient fee if the patient is a MCHCP medical plan member and the service is a preventive service such as a flu shot, lipid profile, etc.
14	At present, what are your biggest cost drivers in terms of medical spend (injury / illness type specifics, problematic days/times/shifts, etc.)?	Please see the attached document.

2014 Employee Health Clinic RFP
August 28, 2013**

15	How are you currently handling your employee health situation? Utilization of near site health centers, occupational medicine facilities, primary care entities?	This is a new endeavor for MCHCP and the State of Missouri, Office of Administration. Health benefits are currently provided through an insurance PPO model provided through contracted TPAs - UMR and Coventry.
16	If you do utilize a near site health center or health centers, please answer the following: o What are the current days and hours care is available? o What is your process for “after hours care”? o What is the current provider mix at these centers? o Who is the near site entity / organization?	MCHCP does not currently contract for a near-site health center. There are a number of doctor’s offices, clinics, urgent care centers in and around Cole county that our members utilize.
17	Are you generally satisfied with the quality of the medical care delivered in the community at present? Primary care? Specialists? Any bad experiences?	MCHCP has not identified any specific issues with the quality of the medical care delivered in the community.
18	What are the current components of your wellness program? o How satisfied are you with your current wellness program overall? o What sort of participation % have you achieved over the past few years? o How do you envision your wellness program interfacing with your new health center? o Will the clinic be used for the Wellness providers labs/biometrics? If so, how will the Wellness provider schedule appointments with the clinic?	Information about the Strive for Wellness program and incentives can be found on our website at the following link: http://www.mchcp.org/stateMembers/striveForWellness/index.asp . You may also consult our Summary of Benefits and Coverage for detailed information about how the two Strive for Wellness Incentives work and for incentive amounts. This information is available on the MCHCP website at the following link: http://www.mchcp.org/stateMembers/publications/documents/sbcAllPlans_2013.pdf . MCHCP's satisfaction with its current wellness vendor is not relevant for the purposes of this RFP. At present MCHCP has a participation rate of around 60% in the Partnership Incentive and 75% in the Tobacco-Free Incentive. MCHCP’s Strive for Wellness incentive plan design and wellness program are operated by a separate MCHCP wellness services vendor. As explained in Exhibit B, Scope of Work, Section B2.7, the on-site clinic vendor will work closely with MCHCP’s Strive for Wellness team to promote, market and assist in coordinating wellness initiatives. The specifics will be discussed with the proposal finalists. Wellness Program participants could obtain preventive lab screenings at the on-site employee clinic should they choose to complete the screenings there. The wellness services provider will not schedule appointments. All clinic visits will be scheduled by the on-site clinic vendor. There will not be coordination of the wellness services provider with the on-site clinic vendor for preventive lab screenings.
19	Do you currently have a formal pre-placement physical demands testing program (for essential demands)? Who provides these?	MCHCP has updated Exhibit B - Scope of Work to remove pre-employment physicals and drug testing as a required service. The revised Exhibit B has been provided as a reference document in HighRoads.

29	What staff mix do you envision being put in place?	Clinic staffing expectations are listed in Exhibit B, Scope of Work, Section B5. Additional information on requirements for staffing are listed in Exhibit B, Scope of Work, Sections B2.2, B2.3, and B2.4.
30	Do you anticipate a no-charge model, meaning use of the health center will be at no cost to the participants?	Employees will pay an on-site clinic visit fee. The fee will vary based upon the patient's status as a MCHCP medical plan member or not as a medical plan member. The on-site clinic visit fee amounts will be determined after contract award and will be dependent upon the estimated cost of the on-site clinic visit based upon the pricing proposal of the awarded vendor.
31	Do you feel comfortable with us recruiting from the existing provider pool in the community?	Exhibit B, Scope of Work, Section B5 explains vendor requirements related to clinic staffing. Exhibit B, Scope of Work, Section B2.2, B2.3, and B2.4 explains clinic vendor requirements related to hiring and selection of necessary staff required to meet the desired level and scope of services.
32	What are your top three goals for your new health center?	MCHCP's top three goals are to provide access to quality, affordable health care in a cost-efficient setting; improve employee productivity by reducing time away from work; and decrease barriers to accessing care for employees.
33	What do you perceive to be your three biggest challenges currently when it comes to employee health?	MCHCP has high rates of diabetes, hypertension, heart disease, and other conditions related to obesity.
34	Will MCHCP please fill out the attached worksheet that requires additional information requests?	No. MCHCP will not be able to complete the attached worksheet for your company only. If the worksheet is completed, MCHCP will provide it to all bidders as an RFP document. Much of the information you are seeking through the worksheet request can be found in Exhibit B, Scope of Work; in the Announcement letter; in the Introduction and Instructions document; and other RFP documents provided when the RFP opened on August 20, 2013 through HighRoads.

Exhibit B - Scope of Work

Exhibit B - Scope of Work	Response
1 Can you please clarify your desire to have parking passes generated via the scheduling system? What challenges do you envision participants facing, if any, relative to parking?	The clinic space is located in the Harry S Truman State Office Building. Parking spaces have been allocated by the lessor of the clinic space. They are dedicated parking spots for clinic visitors traveling from offices that are located outside the Capitol complex. Parking space near the clinic space is very limited. Employees working in the building where the clinic is located may park more than a mile away from the building. The lessor dedicated parking spots must have a "clinic visit parking pass" properly displayed in the vehicle in order to ensure those dedicated spots are accessible to true clinic visitors and not taken by employees looking for a convenient spot to park for lunch or a quick meeting in the building, etc.
2 Can you please clarify and share your goals relative to establishment of "virtual waiting room capability".	The primary goal of a virtual waiting room is to allow employees to be at their work desk rather than in the clinic waiting room as they wait for their appointment and to be called into the exam room. MCHCP is looking for vendor solutions to be able to manage that type of environment.
3 Can you clarify your articulated desire to have health center staff members participate in "emergency first response for worksite injuries"?	While the on-site clinic scope of services does not include workers compensation services, return to work care, or full emergency care, the clinic could provide an initial evaluation and then refer the injured worker to the hospital emergency room for treatment as necessary.
4 Regarding Section B7.2 - Provide a web-based registration system whereby members may schedule an appointment. The web-based appointment system will send auto-reminders when appointment time is approaching so clinic participants may wait in place. Please describe the process for auto-reminders. Is this completed through outlook or a similar system?	MCHCP is not looking for email specific reminders as HIPAA privacy concerns would prohibit such an approach. MCHCP is seeking for the bidder' best practice information and scheduling tool applications. An example could be that the employee could be sent an email with a non-specific message that would tell them they have a message waiting. Then the member would sign onto the vendor's patient portal and have an alert for appointment reminders. This example is for illustrative purposes and is not intended to limit the bidder's creative response and best practice proposal.

Introduction and Instructions

Introduction and Instructions	Response
1 Your RFP document specifically mentions approximately 7,000 employees working in the "immediate area" of the capitol building. Can you please confirm your intent with regard to utilization of the health center by dependents? Retirees?	The clinic will provide services for active state employees who are eligible under MCHCP statutes, regulations and/or plan. Dependents of active state employees are not eligible for clinic services. Approximately 7,000 state employees work in the immediate area of the capitol building, with a total of 13,880 state employees working in the county of Cole, but not conveniently located to the on-site clinic space.
2 Your RFP contemplates a health center this is open Monday through Friday from 8am to 5pm. Into the future, do you envision and expansion of hours or days? Do you envision your new health center being operational on nights or weekends at some point?	For the purposes of this RFP, MCHCP is seeking to pilot an on-site employee health clinic. Future plans and possible expansion opportunities are defined in Exhibit B, Scope of Work, Section B6.2.

3	The space allocation articulated in the RFP documents is 918 sq ft. Is this a definitive number? Is additional space available to accommodate alternate design suggestions and/or future expansion?	Exhibit B, Scope of Work, Section B4. provides detail on the lease requirements associated with this RFP. MCHCP is seeking to pilot an on-site clinic in the space located on the 4th floor of the Truman Building. The allocated space design has been provided with the RFP documents as Attachment 1. Alternate design suggestions will not be allowed for this RFP. Future plans and possible expansion opportunities are defined in Exhibit B, Scope of Work, Section B6.2.
4	The lease for the space (on the lease agreement) states the lease is for 6 months but the initial term contract is for one year with not-to-exceed maximum costs for 2015 and 2016. Please confirm the term of the lease.	An updated lease agreement document was provided to all bidders via HighRoads on 08/26/2013. Please see the new agreement for terms of the lease beyond the initial 6 month term.
5	What is the difference between the initial pricing (due 9/4) and the final pricing (due 9/6)?	Though not required, MCHCP is suggesting bidders complete the pricing worksheet earlier than the final due date of September 6 in order to ensure that all aspects of the worksheet are completed.
6	Are all components of the minimum requirement for on-line scheduling absolute and non-negotiable, specifically the parking management?	Yes.
