

**Title 22—MISSOURI CONSOLIDATED HEALTH CARE PLAN**  
**Division 10—Health Care Plan**  
**Chapter 3—Public Entity Membership**

**PROPOSED AMENDMENT**

**22 CSR 10-3.090 Pharmacy Benefit Summary** The Missouri Consolidated Health Care Plan is amending section (1).

***PURPOSE: This amendment clarifies the out-of-pocket maximum for individuals and families enrolled in the PPO 600 Plan or PPO 1000 Plan.***

(1) The pharmacy benefit provides coverage for prescription drugs. Vitamin and nutrient coverage is limited to prenatal agents, therapeutic agents for specific deficiencies and conditions, and hematopoietic agents as prescribed by a provider.

(A) PPO 600 and PPO 1000 Prescription Drug Coverage.

1. Network.

A. Preferred formulary generic drug copayment: Eight dollars (\$8) for up to a thirty-one- (31-) day supply; sixteen dollars (\$16) for up to a sixty- (60-) day supply; and twenty-four dollars (\$24) for up to a ninety- (90-) day supply for a generic drug on the formulary; formulary generic birth control and tobacco cessation prescriptions covered at one hundred percent (100%).

B. Preferred formulary brand drug copayment: Thirty-five dollars (\$35) for up to a thirty-one- (31-) day supply; seventy dollars (\$70) for up to a sixty- (60-) day supply; and one hundred and five dollars (\$105) for up to a ninety- (90-) day supply for a brand drug on the formulary; formulary brand birth control and tobacco cessation prescriptions covered at one hundred percent (100%).

C. Non-preferred formulary drug and approved excluded drug copayment: One hundred dollars (\$100) for up to a thirty-one- (31-) day supply; two hundred dollars (\$200) for up to a sixty- (60-) day supply; and three hundred dollars (\$300) for up to a ninety- (90-) day supply for a drug not on the formulary.

D. Diabetic drug (as designated as such by the PBM) copayment: fifty percent (50%) of the applicable network copayment.

E. Home delivery programs.

(I) Maintenance prescriptions may be filled through the pharmacy benefit manager's (PBM's) home delivery program. A member must choose how maintenance prescription(s) will be filled by notifying the PBM of his/her decision to fill a maintenance prescription through home delivery or retail pharmacy.

(a) If the member chooses to fill his/her maintenance prescription at a retail pharmacy and the member does not notify the PBM of his/her decision, the first two (2) maintenance prescription orders may be filled by the retail pharmacy. After the first two (2) orders are filled at the retail pharmacy, the member must notify the PBM of his/her decision to continue to fill the maintenance prescription at the retail pharmacy. If a member does not make a decision after the first two (2) orders are filled at the retail pharmacy, s/he will be charged the full discounted cost of the drug until the PBM has been notified of the decision and the amount charged will not apply to the out-of-pocket maximum.

(b) Once a member makes his/her delivery decision, the member can modify the decision by contacting the PBM.

(II) Specialty drugs are covered only through the specialty home delivery network for up to a thirty-one- (31-) day supply unless the PBM has determined that the specialty drug is eligible for up to a ninety- (90-) day supply. All specialty prescriptions must be filled through the PBM's specialty pharmacy, unless the prescription is identified by the PBM as emergent. The first fill of a specialty prescription may be filled through a retail pharmacy.

(a) Specialty split-fill program—The specialty split-fill program applies to select specialty drugs as determined by the PBM. For the first three (3) months, members will be shipped a fifteen- (15-) day supply with a prorated copayment. If the member is able to continue with the medication, the remaining supply will be shipped with the remaining portion of the copayment. Starting with the fourth month, an up to thirty-one- (31-) day supply will be shipped if the member continues on treatment.

(III) Prescriptions filled through home delivery programs have the following copayments:

(a) Preferred formulary generic drug copayments: Eight dollars (\$8) for up to a thirty-one- (31-) day supply; sixteen dollars (\$16) for up to a sixty- (60-) day supply; and twenty dollars (\$20) for up to a ninety- (90-) day supply for a generic drug on the formulary;

(b) Preferred formulary brand drug copayments: Thirty-five dollars (\$35) for up to a thirty-one- (31-) day supply; seventy dollars (\$70) for up to a sixty- (60-) day supply; and eighty-seven dollars and fifty cents (\$87.50) for up to a ninety- (90-) day supply for a brand drug on the formulary;

(c) Non-preferred formulary drug and approved excluded drug copayments: One hundred dollars (\$100) for up to a thirty-one- (31-) day supply; two hundred dollars (\$200) for up to a sixty- (60-) day supply; and two hundred fifty dollars (\$250) for up to a ninety- (90-) day supply for a drug not on the formulary.

F. Diabetic drug (as designated as such by the PBM) copayment: fifty percent (50%) of the applicable network copayment.

G. Only one (1) copayment is charged if a combination of different manufactured dosage amounts must be dispensed in order to fill a prescribed single dosage amount.

H. The copayment for a compound drug is based on the primary drug in the compound. The primary drug in a compound is the most expensive prescription drug in the mix. If any ingredient in the compound is excluded by the plan, the compound will be denied.

I. If the copayment amount is more than the cost of the drug, the member is only responsible for the cost of the drug.

J. If the physician allows for generic substitution and the member chooses a brand-name drug, the member is responsible for the generic copayment and the cost difference between the brand-name and generic drug which shall not apply to the out-of-pocket maximum.

K. Prescription drugs and prescribed over-the-counter drugs as recommended by the U.S. Preventive Services Task Force (categories A and B) and, for women, by the Health Resources and Services Administration are covered at one hundred percent (100%) when filled at a network pharmacy. The following are also covered at one hundred percent (100%) when filled at a network pharmacy:

(I) Prescribed Vitamin D for all ages;

(a) The range for preventive Vitamin D is at or below 1000 IU of Vitamin D<sub>2</sub> or D<sub>3</sub> per dose;

(II) Zoster (shingles) vaccine and administration for members age fifty (50) years and older;

(III) Influenza vaccine and administration as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

(IV) Generic Tamoxifen, generic Raloxifene, and brand Soltamox for prevention of breast cancer;

(V) Prescribed preferred diabetic test strips and lancets; and

(VI) One (1) preferred glucometer.

2. Non-network: If a member chooses to use a non-network pharmacy for non-specialty prescriptions, s/he will be required to pay the full cost of the prescription and then file a claim with the PBM. The PBM will reimburse the cost of the drug based on the network discounted amount as determined by the PBM, less the applicable network copayment.

3. Out-of-pocket maximum.

A. Network and non-network out-of-pocket maximums are separate.

B. The family out-of-pocket maximum is an aggregate of applicable charges received by all covered family members of the plan. Any combination of covered family member applicable charges may be used to meet the family out-of-pocket maximum. Applicable charges received by one (1) family member may only meet the individual out-of-pocket maximum amount.

C. **PPO 600 Individual**—five thousand one hundred dollars (\$5,100).

D. **PPO 600 Family**—ten thousand two hundred dollars (\$10,200).

E. **PPO 1000 Individual**—two thousand one hundred dollars (\$2,100).

F. **PPO 1000 Family**—four thousand two hundred dollars (\$4,200).

*AUTHORITY: section 103.059, RSMo 2016.\* Emergency rule filed Dec. 22, 2009, effective Jan. 1, 2010, expired June 29, 2010. Original rule filed Jan. 4, 2010, effective June 30, 2010.
